

# CyTOF<sup>®</sup> Helios/Hyperion 質譜流式細胞分析核心平台 說明會

時間: 11/20(Mon) 15:10 ~ 17:00

地點: 卓越大樓6樓608教室 (講師) /  
立夫教學大樓201 (遠端連線)

主講人: Chai Pei Zhi, Edna, Ph.D  
Field Application Scientist,  
Standard BioTools

## Abstract:

Generate high-parameter protein data with confidence using Standard Biotoools CyTOF technology. Understand how CyTOF enables researchers to generate biologically relevant insights that informs not only on pathological conditions and therapeutic outcomes, but also generates novel insights by detecting commonly missed low-frequency populations. Both suspension mass cytometry and imaging mass cytometry applications will be shared and discussed.
